

Making *INCLUSIVE EDUCATION* Happen

**An Easy Read Summary
August 2025**

Making Inclusive Education Happen.

This is the easy read summary of '**Achieving Inclusive Education**' document by The Coalition for Inclusive Education.

The Coalition for Inclusive Education is a group of Disabled people and allies who are interested in making Inclusive Education happen.

The Coalition for Inclusive Education is supported by **The Alliance for Inclusive Education**.

The Coalition want to see an '**Inclusive Education Act**' in the UK. This will help get inclusion, justice and a right to education for all Disabled students.

The United Nations Convention on the Rights of Persons with Disabilities (**UNCRPD**), **was signed by the UK** in 2009.

This guarantees inclusive education for **Disabled students and pupils.**

But the UK does not follow this because it keeps allowing segregated learning places, like **special schools.**

This means that lots of UK Disabled students and pupils **experience discrimination.**

The Coalition for Inclusive Education, a group helped by ALLFIE since 2024, says this **should change.**

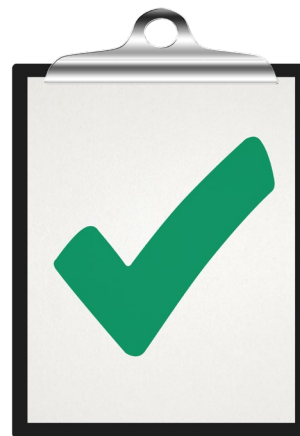

They say that we need an **Inclusive Education Act.**

This would help give a **right to education** for all Disabled pupils and students.

The Coalition for Inclusive Education says that **there are nine things** that need to happen to improve the situation for Disabled pupils and students.

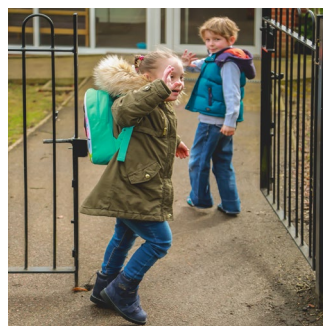

1. A RIGHT TO INCLUSIVE EDUCATION

Make a law that says all Disabled and Deaf students have the right to go to regular schools with everyone else.

This law should follow the **UN rules** and make sure students get the help they need to stay in school.

The law should withdraw all reservations to **Article 24** of the UNCRPD.

This says;

‘Every person with a disability has the right to education without discrimination and on the basis of equal opportunity’.

2. STOP SEGREGATED EDUCATION

Stop using special schools and make all schools **inclusive for everyone**.

Use money from special schools to **help all schools** include everyone.

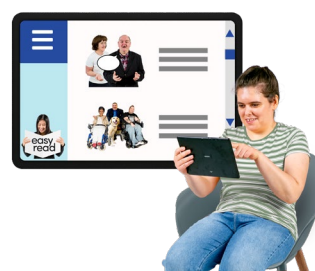

3. ENABLE ACCESSIBILITY

Make sure all schools and places of learning have **what they need to help** Disabled people.

This means making things **easy to use** and giving extra help when needed. Everyone should be able to learn together.

4. A CURRICULUM FOR ALL

Make a new school plan and learning programme, a curriculum **that works for everyone**, especially Disabled pupils.

Change tests to be **fair for all**.

Stop using **Education & Health Care Plans** and try a new way that helps everyone learn better.

5. MONITOR AND PROMOTE INCLUSION

Create **one system** to **check** and manage Inclusive Education.

This system makes sure all schools include everyone and **give support** to all students.

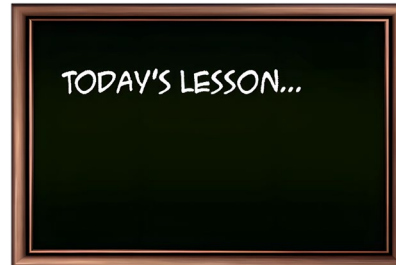

Families should not have to ask or **fight for help**.

6. MORE DISABLED PEOPLE AS TEACHERS

Get more Disabled people working as **teachers and helpers** in schools.

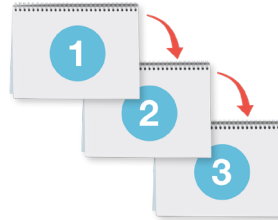

Make sure they get the right help and support so they feel welcome and can **do their jobs well.**

7. SKILLS FOR INCLUSION

Make a plan to help teachers **learn more** about Inclusive Education.

This plan should teach them how to **include all** students in learning.

Make sure all teaching courses have **lessons on Inclusive Education**.

Keep helping **teachers** to learn more.

8. REPRESENTING DISABLED PEOPLE

Increase the visibility and **representation of disability** across the curriculum and learning context.

Promote a **positive culture** of Disabled people to include their histories, realities and diversity.

9. A PROACTIVE APPROACH

We need to **take action** to stop unfair treatment and leaving people out in schools.

This includes helping people who face different kinds of **unfair treatment** at the same time.

The Coalition for Inclusive Education believe that if we do these **nine things**, it will help get inclusion, justice and a right to education for all Disabled students.
